

Request under the *Freedom of Information and Protection of Privacy Act*:

In order to publicize BC Ferries use of LNG, BCF has signage on some vessels stating they are powered by LNG.

Please confirm the annual consumption of LNG by the BCFERRIES vessel, 'Spirit of British Columbia' for the 2019 fiscal year as SOBC displays several such signs.

BC Ferries Response:

BC Ferries' records indicate that during Fiscal 2019 (April 2018 to March 2019), the *Spirit of British Columbia* consumed 9,002,087 diesel litre equivalents of liquefied natural gas.
