

An Update on BC Ferries' Langdale Terminal Redevelopment Plan

Hello Sunshine Coast Residents,

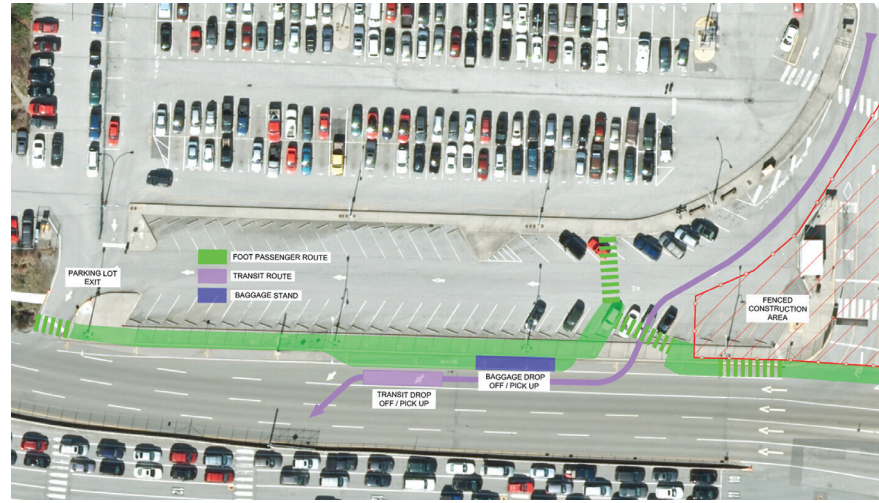

We continue to move forward with the Langdale Terminal Development project. This month's update focuses on construction phasing and an upcoming shoreline cleanup in the region.

We are still targeting construction on the first phase to begin in the Fall. As we have mentioned previously, this project requires approval from the British Columbia Ferries Commissioner. We are moving the approvals process along as efficiently as we can and will update you when its complete.

What's happening now at the terminal

A current area of focus is on the early phases of construction. We recognize the construction process will cause some disruption at the terminal, so we are working hard to minimize that impact.

In the first phase of construction, we will be preparing the area for the new terminal building, which will be on the seaward side of the existing parking area. In this phase of work, we will need to relocate the bus pick-up and drop-off area, as well as the baggage drop-off/pick-up area to allow the work area to be separated from pedestrian and vehicle

Phase 1 – Reconfigured foot passenger pick-up/drop-off, transit stop and baggage area

traffic. This ensures the most efficient operation and safety of our customers and staff, as all work will take place behind construction fencing.

During this time customers travelling as foot passengers, including via BC Transit, will need to be aware of where the new pick-up/drop-off areas are located. Customers disembarking the ship in a vehicle will also have a reduced merge lane when arriving at the terminal. Please ensure you drive slowly and safely when disembarking the ship and give yourself extra time when arriving at the terminal.

Great Canadian Shoreline Cleanup

Every year, hundreds of BC Ferries' employees from across the province participate in the Great Canadian Shoreline Cleanup to help keep our beaches clean. This year, BC Ferries is running our company cleanup from July 6 - 14. The team at Langdale terminal will be cleaning the beach nearby on Monday, July 8. Last year, collectively across the company, employees removed over 1,500 kilograms of garbage from B.C. beaches!

Please continue to send me your questions about the Langdale terminal redevelopment project at michael.pearson@bcferries.com.

Thank you,

Mike
